Millennium understands both the strategic challenges as well as the day-to-day frustrations faced by long term care organizations. We also understand how important a pharmacy service is to accomplishing your mission. We understand because we’ve been there. Our team is from the industry. Our depth of experience and expertise has enabled us to develop and offer the right combination of services, responsiveness, and innovation to deliver on the promise, “The Right Drug, for the Right Patient, at the Right Time, for the Right Price.”

A pharmacy service must be a partner in reducing cost, enabling better clinical and financial outcomes, and improving staff productivity and satisfaction. A pharmacy service must be easy to do business with and a seamless part of your organization’s operations. To that end, we provide Millennium pharmacy services for Care, Cost, and Compliance.

Millennium replaces frustration, inefficiency and waste with responsiveness, efficiency, and cost savings. Only Millennium combines Just-In-Time Dispensing with electronic prescription ordering, formulary management, medication and treatment administration, and corresponding medical records. And, because of our relentless dedication to quality and consistency, Millennium guarantees delivery timeliness and medication accuracy.

By reducing waste and returns, minimizing your inventory, and improving cash flow, long term care facilities benefit from unmatched savings and service. Now your staff can spend more time caring for patients and less time managing paper.

**Pharmacist – Part Time – Orlando, FL**

This position is responsible for ensuring that medication is dispensed to MPS patient population at the nursing home accurately and in accordance with all applicable laws, regulations, and company policies. Pharmacists monitor workflow and ensure technicians are working in the correct areas.
