The PGY1 Pharmacy Residency at The Nebraska Medical Center offers a unique and stimulating learning environment which provides outstanding clinical training in pharmacy practice. The 12-month program is designed to develop the resident's expertise that will enable them to practice independently and excel in service, teaching and clinical research. The program provides experiences in a variety of settings including patient-centered care and pharmacy operations, as well as the development of leadership skills applicable to many situations and practices.

Residents participate in all aspects of our comprehensive pharmacy services:

- rounding with multidisciplinary medical teams
- pharmacokinetic consultations
- compliance with clinical pathways, protocols and core measures
- anti-coagulation management
- participation on the emergency cardiac arrest team
- education of patients and other health-care professionals

Rotations are designed to integrate clinical practice, teaching and research. Throughout the year, residents participate in several longitudinal experiences to further broaden their experiences. Upon completion of this program, each resident will be prepared to enter a postgraduate year two residency, a fellowship program or a clinical practice position.

**Required Rotations**
- Orientation (July)
- Internal Medicine
- Drug Information Management
- Research (December)

**Longitudinal Experiences**
- Pharmacy Grand Rounds
- Leadership Development Series
- Teaching Certificate Program
- Research

- Critical Care and Pulmonary Medicine
- Neonatal Intensive Care

**Elective Rotations**
- Any selective rotation
- Anesthesia
- Emergency Medicine
- Geriatrics
- Infectious Diseases
- Immunocompromised Infectious Diseases
- Toxicology
The Nebraska Medical Center is the clinical partner of the University of Nebraska Medical Center (UNMC), which includes the Colleges of Medicine, Pharmacy, Nursing, Dentistry and Allied Health. UNMC, with an enrollment of approximately 3,655 students, is the only public academic health science center in Nebraska and is internationally recognized as a leader in patient care, research and education. The not-for-profit hospital is known for excellence and innovation in medicine.

The Nebraska Medical Center is a 635 bed, Level One trauma center with over 40,000 emergency room visits per year. As the primary teaching hospital for UNMC, The Nebraska Medical Center is a respected leader in solid organ transplantation, cardiology, blood and marrow transplantation, oncology and neurosciences.

The Nebraska Medical Center brings together the expertise of private practice medicine with the strengths of an academic health center. The many areas of specialization give each resident a variety of experiences, from the critically ill neonate to the cancer patient undergoing blood and marrow transplantation. By combining state-of-the-art research, education and exceptional patient care, we offer the best of both worlds.

The working relationship between The Nebraska Medical Center and the UNMC College of Pharmacy provides a solid foundation for a quality pharmacy residency program. The program provides an excellent mixture of clinical experiences, one-on-one interaction with faculty and clinical preceptors, and the flexibility to modify the program to individual needs. In addition, the residency provides many opportunities for educating and precepting students. The end product is pharmacy training that actively involves the resident in patient care, education and research.
Application Requirements

- Applicants shall be graduates of an Accreditation Council for Pharmacy Education (ACPE)-accredited Doctor of Pharmacy degree program or have equivalent experience.
- Applicants must be licensed or eligible for licensure as a pharmacist in the state of Nebraska. Licensure must be obtained by July 31.
- Applicants shall participate and adhere to all rules of the Resident Matching Program process.

Application Information

Candidates are required to complete and submit an online electronic application through PhORCAS. Required application materials include the following:

- letter of intent (addressing program specific questions)
- curriculum vitae
- pharmacy school transcripts
- three narrative letters of recommendation in addition to PhORCAS standardized reference forms

Please visit www.nebraskamed.com/pharmacy/residency for additional application information.

Deadline: Jan. 3

About Omaha

Men’s Health Magazine ranked Omaha among one of the Happiest Cities in 2011. Since then, the Fiscal Times (2012) ranked Omaha first in the list of U.S. Cities with the Biggest Bang for Your Buck. Forbes (2012) listed Omaha in their top ten cities to raise a family. Livability (2012) ranked Omaha in the Top 10 Cities with Best Music Scenes Outside Nashville, New York City and Los Angeles. Omaha also took the top spot on Kiplinger’s list on the list of 10 Best Value Cities for 2012 because of the consistently low unemployment rate, revitalized downtown and midtown areas and new businesses. The metro-area community of nearly one million is home to national events such as the NCAA Men’s College World Series, basketball tournaments and Olympic swim trials. Attractions like the Henry Doorly Zoo and cobblestone lined streets of the Old Market district are nationally known attractions. The Bemis Center for Contemporary Arts, the Joslyn Art Museum and a wide variety of shops offer area residents an exciting cultural experience. For more information, contact the Greater Omaha Convention and Visitors Bureau by calling 866-937-6624 or visit www.visitomaha.com.
