WHAT IS IT:
SanctionsBase® is a proprietary database built and maintained by Certiphi Screening, Inc. in order to help employers in the healthcare field search for administrative and disciplinary actions against potential employees.

HOW IT WORKS:
The various sectors of the healthcare industry are regulated through a network of regulatory and accrediting organizations. In addition to accrediting and licensing, these organizations monitor and take disciplinary actions on their membership.

Using the Freedom of Information Act and state sunshine laws, Certiphi Screening® collects these disciplinary action records and includes them in the SanctionsBase® database.

Disciplinary actions against both individuals and organizations are searchable by name and/or address in the SanctionsBase®. Included in each record located is a description of the violation and enforcement action details.

FEDERAL/NATIONAL HEALTHCARE SOURCES:
• Department of Health and Human Services Office of the Inspector General (HHS-OIG)
